

revolutionary childrens church curriculum

with Brendon & Cathie Clancy

Hear from some Children's Ministers already using the Clancy's OKTV Curriculum...

The Overflow Kids curriculum has provided a **fresh innovative approach** to children's ministry at Cityview Church. This resource is both **comprehensive and easy to use**. We were able to effortlessly integrate Overflow Kids into our existing programme and structure.

The teaching is **relevant**; presented at a level and in a format children of all ages can understand. Praise, worship and Bible drama have been woven into each session enabling the children to have a meaningful encounter with Jesus.

Kris O'Brien
Cityview Church Sydney

Our children's ministry is loving the OK Kids curriculum.

We use the prayer slips every week and the kids are learning that they can come to God with anything. The kids love the offering messages and acting out the scriptures. Everyone loves Cathy's mini-messages.

The **curriculum supports our vision for children**, which is to build them into spiritual champions through the word, prayer and worship. I have found that the curriculum support / training materials have **allowed us to build a large team of leaders**.

Even those who have never 'taught' children before find the curriculum easy to use because the framework is there. They just have to add their passion and enthusiasm - easy!

Jenni Gilbank
CCC Mackay

The kids love it and so do the team.

Cheri Colbourn
CCC Belconnen

Even though we're a fairly small church (60-70 Sundays) we started Overflow Kids in the first term this year, and it's going great.

We turned a room into a 'home theatre' type setup. We stripped out all furniture and painted one wall black with a huge white screen for the projector. The kids think it's fantastic. Plus, we are able to run movies there while the parents hang out afterwards.

One of my leaders said last week *"I don't miss the 'main service' - OK program IS my church! I get to pray, worship, listen to the Bible, connect... I don't feel like I'm missing out at all!"*

So there you go. Add to that, OK is growing faster than any other area in the church, and I'm expecting the next salvation in our church.

David Hooper
CCC Port Hedland

Hey I just wanted to let you know, we started the OK curriculum at the beginning of this term, and we're absolutely loving it!! My leaders love it, and often give me great feedback on it.

We have had many wonderful ministry times with the children, praying for each other and receiving prayer. They love connect groups and **many parents have been coming up to me saying, 'our kids can't get enough or kidz church!'** and as for me... **it releases me to work on final touches and be able to put my focus in other areas, not just the program.** I feel so free to just go where ever the spirit is leading. It's wonderful! I have been down stairs with the children each week since the beginning of the term... but I so enjoy it now. It's not a stress for me, it's my input also. In a couple of weeks we are doing a pyjama day!! I am looking forward to that.

Thank you, for what you do to help and support ministries like mine. You're gems! I tell every one how great this program is whenever I talk to other kids pastors.

revolutionary childrens church curriculum

with Brendon & Cathie Clancy

Thank you Brendon and Cathie for the wonderful OK Kids Overflow Curriculum!

It is challenging to find a resource that is versatile enough to be used in a wide range of settings and with a wide range of applications and this is a curriculum that provides for the broad range of church, school, home or outreach settings. Whether a kids church of 5 or 100's, at home, at school or for outreach, the **OK Kids Overflow Curriculum is versatile, user friendly and totally adaptable to any child's environment.**

We have used this curriculum 'as is', which means we put the DVD on, hit play and enjoy with our kids! We have also used isolated sections as a base to build other morning programs that cater directly to our themes and a real bonus, it has been a wonderful training tool for all the faithful leaders who begin or are already serving within our Kids Ministry.

Being responsible for programming and implementing the Kids Ministry program in the church, it has **freed me to spend more time with the families in the church and equipping our growing team.** Less time is spent sourcing activities, messages, games and so on for each week/term/year and instead I provide the team with the appropriate DVD which contains EVERYTHING needed and away they go! Each DVD contains engaging praise and worship with the Clancys, connect games to bring everyone together, Bible based, relevant and life changing mini messages and much more to bring kids (and adults!) into the presence of God.

What we love the most is the limited number of resources needed to implement this program. It doesn't matter if you are a church in the middle of the city, are miles from anyone, have 2 leaders or 200, an abundance or a limit of resources, this curriculum is readily available to all kids. Bring together a TV, a DVD player, basic computer/photocopier, enthusiastic adults, a great group of kids and get ready to step into an amazing journey in God's presence!

We have loved every topic in the mini messages, the connect questions have developed a greater knowledge of biblical principles and their application in kids lives, and the kids LOVE the games and praise and worship that are all provided.

However, **by far the most wonderful part of the curriculum is the love of Christ that flows out from every session. We have seen so many children give their lives to Jesus while we have been using this program** and have watched their love for Jesus, themselves and each other grow as the sessions continue.

Thanks so much for putting your heart into this project and really blessing our kids. We can't wait for the next Modules and would highly recommend this curriculum to leaders, parents, schools, churches and anyone who wants to see kids living a life with Jesus.

Chris Canning

Kids Ministry Leader
Christian City Church
Coffs Harbour NSW Australia

We have just started module three of the Overflow Kids Curriculum. We now have some new team leaders trained. **We wanted to create an atmosphere of praise and worship where the kids would really begin to respond to God.** The girls are like sponges and the boys are just starting to come on board.

It has taken a while for change to come but **it is so exciting to see a whole new culture in children's church being created.** God has helped us every step of the way. **New children are coming already.** Your ministry to us has been so inspiring.
